

Town of Lee Conservation Commission

7-17-2025

Lee Town Hall

Lee, MA. 01238

Dear Commission Members,

We, the undersigned, wish to express our deep concern over Commission member John Coty's involvement in the matters involving Gary and Kristin O'Brien and their property located at Fox Dr. Lee, MA. Mr. Coty has exhibited questionable behavior and clear bias in his actions and toward community members attending the meeting of 7/16/2025. His interactions were one sided, and his questioning of one attendee's credentials were a clear indication of his biased position. Moreover, he was witnessed speaking to Mr. O'Brien after this meeting and referred to him as "buddy". We believe Mr. Coty's lack of Impartiality is a clear conflict of interest, and even the slightest sign of this behavior should be taken very seriously. The integrity of this commission and its work must be protected, as must the matter at hand and it's handling by the commission.

This and other matters concerning this property are crucially important to the environment and to the Town residents, abutters and neighbors of this community. There is no place for even the slightest indication of bias and all commission members considering this matter must be disinterested.

As such, the undersigned request that Mr. Coty recuse himself from all further involvement as a commission member related to this matter and any other relevant matters. In the event that Mr. Coty refuses to recuse himself, we request that the commission members act to remove Mr. Coty from his position as it relates to this matter and any other relevant matters.

Respectfully Submitted:
